Dr. Houck, Director of Administration Services for CCPS is preparing for the upcoming flu season and designing ways to minimize the risk to our students. He is looking for volunteers who are willing to supervise and provide minimal medical care to ill students (taking a temperature, provide fluids, keeping comfortable) while students are waiting for a family member to pick them up. Sometimes these waits can be long. School nurses will provide training, protective masks and gloves. The health department has said that these volunteers would be put higher on the priority list to receive the H1N1 flu shot when available. If you wish to volunteer, please contact the school nurse.
