

Please help

Aluminum: the most valuable
container to recycle

Did you know that...

- making new aluminum cans from used cans takes 95% less energy than making a can with new aluminum?
- 20 recycled cans be made with the energy needed to produce one can with new aluminum?
- last year 54 billion cans were recycled saving energy equal to 15 million barrels of crude oil?

Help your child be a “Recycler of the Month”!

You will be helping to raise money for students at Pearl Sample Elementary School as well as helping to save the planet’s resources!

- Bring all of your aluminum soda cans, newspapers and cardboard to the Wise Recycle Center located at 745 North Commerce St. in downtown Culpeper.
- Take your recyclables to the technician on duty to be weighed.
- Tell the recycle technician that the money is to go to Pearl Sample Elementary School AND ask for a receipt!
- Send the receipt(s) to your child’s teacher with your child’s name on it so your child will receive credit.

PLEASE DO NOT BRING CANS TO PEARL SAMPLE!!

A student from each grade level will be recognized each month.
